ORGANOLEPTIC CHARACTERISTICS	Courgettes grilled on hot lava stones, seasoned with spices reminiscent of the Mediterranean, and preserved in olive oil. Colour: light green/olive, typical of cooked courgette flesh, finely milled and preserved in oil. Odour: fresh and vegetal, dominated by the delicate aroma of courgette, with distinct notes of mint and parsley and a pungent hint of garlic. Texture: creamy, soft and spreadable. The high percentage of courgettes (63%) and olive oil gives it a structured yet velvety texture. Taste: delicate and savoury, based on the sweet flavour of courgette. It is enlivened by refreshing acidity (vinegar and citric acid) and fresh mint notes. The taste finishes with a lightly spicy finish from the chilli pepper.
Serving suggestions	Ideal as an appetiser, side dish, or filling for sandwiches and focaccia.
